1978 Toyota Celica RA28 2000 GT

Manufactured in December 1976 and registered on February 1978, this was the last mk1 celica made for the UK market and Toyota put the TRD 88S registration on this car when new to mark this. TRD Toyota Racing Development 88 being the Japanese lucky number and S being the year it was registered. This car was only ever driven for 2 years of its life from 1978 to 1980 and having only covered 18,000 miles was then locked up in an underground basement. The exterior of this car has had a bare metal respray in original colour 861 Blue metallic, interior is all original and in immaculate condition. You simply will not find another MK1 Celica RA28 GT like this. Collectors item and will only increase in value. One not to be missed.
